To Our Valued Customers

## Notice of Facility Usage Fee Revision

Dear Valued Customers,

We sincerely appreciate your continued patronage of Warp Station Edo.

Since 2019, we have operated with two separate fee structures for the “Medieval Area” and “Modern Area.” Due to various circumstances, we will revise the facility usage fees effective April 1, 2026, implementing a unified fee structure.

Reasons for the Revision:

1. Numerous areas requiring repairs due to aging have emerged in the Medieval Area, which has been in operation for approximately 25 years since opening.
2. Rising personnel costs and inflation have increased various expenses related to maintenance and management.

Under these circumstances, we have made every effort to maintain the current fees. However, we have reached a point where a revision has become unavoidable. Please refer to [the attached document](#) for further details.

We remain committed to supporting your creative endeavors as a filming location and will continue to make every possible effort. We sincerely appreciate your understanding.

Sincerely,

Contact:
